

Participant Information and Consent Form: Mount Isa Consultation

Purpose. CUC Mount Isa is asking the community how we can better support students, families and carers to explore study and training after school. This work is part of Study Hubs In Place (SHIP), a national program widening access to study in regional and remote communities. Nothing is decided yet, and what you share will help shape it. Taking part is your choice. You can skip any question or stop at any time.

How we use what you share

- Notes are stored securely on CUC systems and seen only by project staff.
- We report themes, never names.
- This is program evaluation, not research. Findings go to the SHIP team, partners and funders. You will see what we heard in January if you opt in to receive updates.
- You can withdraw your comments until 24 January 2027 by contacting ana.kuleshova@cucmountisa.edu.au.

I agree that...

Circle one

I understand what this consultation is about and I am taking part by choice	Yes / No
CUC staff may take notes of what I say	Yes / No
My yarn, interview or workshop may be audio or video recorded	Yes / No
